

MOON

... The leading edge in music & film reproduction

"Over 25 Years of Excellence"

FOR IMMEDIATE RELEASE - September 4, 2008

Simaudio Ltd. proudly introduces the MOON CP-8 Multi-channel Preamp/Processor, one of our newest additions to the MOON Evolution series. A genuine flagship Surround Preamp/Processor, the MOON CP-8 is aimed at the uncompromising enthusiast without price constraints. Designed with sound quality first and foremost in mind, the CP-8 provides a previously unimaginable level of sonic purity and realism from an audio/video product.

Raising the bar for the ultimate in A/V Controllers !

A monumental obstacle that has been overcome by our dedicated engineering staff was the successful implementation of the latest advancements in HD video and HD digital audio decoding technologies. Coupled with our State-of-the-Art analog circuitry, the CP-8 is foolproof yet simple to operate. Intended to be the flawless nerve center for the most sophisticated and high performance audio/video systems available today and tomorrow, the MOON CP-8 will always leave you breathless, yearning for the next home cinema experience.

MOON CP-8 Significant Design Features:

- 7.1 Channels with up-to-date HD audio and video decoding.
HDMI 1.3a inputs and output.
RS-232C and serial IR ports for full custom external control.
Three-zone multiple source capability.
Dual assignable 12 Volt trigger outputs.
HD Video Circuitry using 12-bit/216MHz encoders/decoders with NSV Precision Video that includes Faroudja DCDi video processing, 1080p video pass-through, and up to 1080p analog-video-to-HDMI upscaling.
Full-function programmable remote-control with touch-screen and secondary remote control for basic operation.
Over-sized power supply with 2 transformers including 1 proprietary toroidal specifically for analog audio circuitry.
Power supply voltage regulation includes 20 stages of i2DCf.
6 assignable digital audio inputs.
Hidden control panel allows for full operation and setup without a remote control.
10 DSP simulation playback modes.
Auto Surround Mode for Digital & Analog inputs.
2 subwoofer outputs.
Three user-selectable muting levels.
"Auto Setup Calibration" (w/ microphone), Auto & Manual room calibration and "Audyssey Mult EQ XT".
Built-in AM/FM Tuner, RIAA Phono Section (MM) input and XM Satellite Radio ready.

MSRP \$18,000.00 USD / Availability - October 2008
