

M O O N

... The leading edge in music & film reproduction

FOR IMMEDIATE RELEASE - December 17, 2003

Simaudio Ltd. proudly announces the introduction of the **MOON Limited Edition (LE)** series "Balanced Differential Music System", comprised of the **MOON Eclipse LE** CD Player, the **MOON P-5 LE** Dual-Mono Preamplifier and the **MOON W-5 LE** Dual-Mono Power Amplifier (rated at 200 wpc into 8 ohms). Beginning in 2004, Simaudio will be producing only 250 units of each model for the truly discerning music lover.

The **MOON Limited Edition** series represents a genuine leap forward in both sonic excellence and physical appearance. Call it the evolution of world class performance. Each unit features polished chrome accents, a 1/2" thick brushed & anodized silver faceplate, a custom 2 meter Cardas power cord and a *Limited Edition* serial number plaque.

The MOON P-5 preamplifier and MOON W-5 power amplifier were originally introduced in 1997. Two years later, the MOON Eclipse CD player was launched. Throughout their respective life-cycles, each of these outstanding models has garnered many colossal reviews and numerous awards from the global audio press. During the same period they have undergone various minor changes, either as a result of the availability of new and improved parts and/or subtle design changes. The **MOON Limited Edition** series is the ultimate statement for these legendary audio components.
