

MOON

... The leading edge in music & film reproduction

FOR IMMEDIATE RELEASE - May 11, 2007

Simaudio Ltd. proudly introduces the MOON i-1 Integrated Amplifier, our newest addition to the MOON Classic series of audio components. The i-1 delivers "audiophile" performance in an affordable and elegant package. Designed with numerous convenient features, this integrated amplifier will provide for years of hassle-free musical enjoyment. Over a quarter century of experience in the design and manufacturing of award winning high-performance audio components has paved the way for the new MOON i-1; An Integrated Amplifier that produces an astonishing level of sonic performance with no equal in its price range.

"Over 25 Years of Excellence"

MOON i-1 Significant Design Features:

- An oversized power supply using a custom toroidal transformer design.
- Rated output of 50 watts/channel into 8 ohms and 100 watts/channel into 4 ohms.
- Six line-level inputs including one front-mounted 1/8" mini-jack for personal media players.
- Headphone output on 1/4" TRS jack located on the front panel.
- Remote control operation.
- RS-232 port for i) full unsolicited bidirectional feedback in custom installation setups and ii) firmware updates.
- IR input for external control.
- A single pair of bipolar output devices in the amplification section.
- Class A output to 5 watts for greater efficiency.
- Circuit board with pure copper tracings and gold plating that yields low impedance characteristics.
- Optimized selection of very high quality electronic components.
- Heat-sink free design incorporating a rigid all-aluminum chassis for evenly distributed heat dissipation.
- Low operating temperature for a longer than normal life expectancy.

Scheduled availability - Fall of 2007
